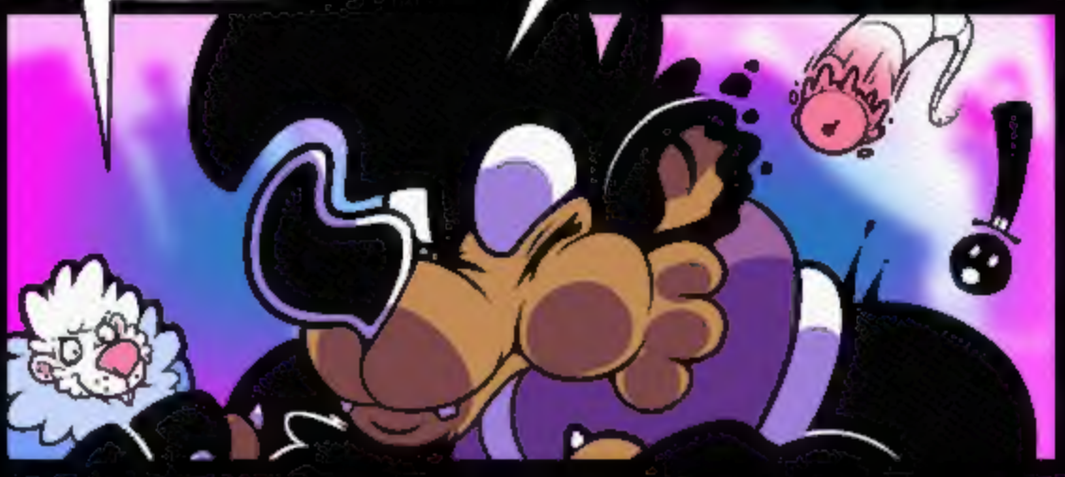
Ky Zazz, at your service. The most loyal of royal advisors!
N-nice to meet you, Ky!
Wow, Toma! Does this mean you're royalty?
Loyal until the BITTER end, Toma!
I will NEVER betray you.
The book and I were smitten by the form you took the other day. Care to show it off again?
Oh this? Ah, nothing special, just a big bad wolf with a stylish hairdo!

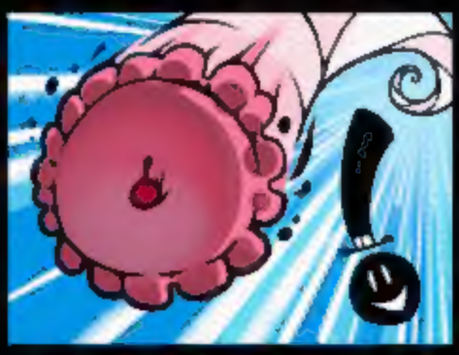
No, the rat fella! The Book would simply love to see it again.

~Hngh~ I'm. . . not so sure how I pulled that one off!



This is exciting! If Inkbolt gave you powers to shift into other toons. . .

TOMA!



SPLAT!

Um, I don't think that was an errant pie.

A... pie? Oh no. What kind of flavor was that? It can't be. Why THAT toon now!?

Who!?

A cat with no name. The last character Acres was working on before he suddenly vanished!

Hate squandering the element of suprise with the ol' paintberry, but I gotta be purr-fessional here!

So what do you know about this toon, Toma?

Barely anything. "A hit-cat fur hire" was the tagline beside a bunch of unfinished concept art. The only toon I know who used pies as a gimmick, but what a weird flavor!

How dangerous can a pie be?

Now where did... Ah!

Lucky you, wolfy. This next pastry is worth every cent my client paid!
And YOU get to see it in action!
Ring Ring
WHOOSH!
My meow-velous blackholeberry pie!
